High efficiency brush motor

The latest offering from this company is the TG3300 Series slotless brush PM motor, which eliminates conventional iron cores and their problems with cogging torque, iron and hysteresis losses. Maximum continuous torque is 80 oz-in. at 10,000 rpm, using an input voltage of 24 VDC and a current of 27.5A. The unit is rated at over 1 hp, yet weighs less than 34 oz. **ThinGap Motor Technologies**, Ventura, CA.
